AD FORMS CLOSE THE 20th OF EACH MONTH.

Entered as second class matter October 13, 1956 at the post office of Newark, New Jersey under the act of March 3, 1879.

From Your Editor's Desk —

RADIO TALKS

The past few months our readers have read about the Big Joe, Happiness Exchange radio program from New York City. This program has helped thousands of persons who have been unfortunate and in need. To further insure the continuation of this wonderful work a "Coin Collection endowment fund was started. On hand in a vault are some $4,000. in face value. Coins of all types were purchased or donated from the radio listeners. Some of the materials are gold type sets; 4,000 Indian cents; patterns; complete set of commemorative halves; foreign and U.S. paper monies.

During this time the Flying Eaglet has been in contact with the program by arranging a number of talks on our Numismatic Hobby. Two personal appearances have been made by your Editor and Nick Salimbene. Some 3 hours radio time was used on interviewing, talks on various coins, answering questions and acquainting the listeners with the coin collecting hobby. Radio time was also arranged for our writer of Canada, Harold D. Allen; James Brown and Jack Nannery of the Brooklyn and Newark Coin Clubs. In all, some 5 hours radio time was consumed through the Happiness Exchange Radio Program. These talks no doubt will prove beneficial to all in the Coin Collecting hobby. In these talks Big Joe and the radio listeners were invited to attend the Newark Coin Convention of which Big Joe assured us he will be there. The Flying Eaglet will also be there with a table.

We hope some of our readers may have heard us as the station reaches some (16) Eastern States plus Canada and Possessions. During the course of the talks some 100 phone calls were received with donations of coins, questions of coins and their values. One call, a lady asked what her 1894-S dime was worth, being rare (24) were struck, she was told it was valuable and to bring it in. The possibilities are always there of finding a rare piece, for example the recent find of the 1943 copper cent.

CIRCULATION INCREASES

We are happy to report our circulation is around 4,000 copies with over 3,000 paid subscribers. We hope to bring our circulation up to 6,000 by the years end. During the past month subscriptions were received from civilians of foreign lands of Brazil, Romania, Republic of Domenica, Hungary and Japan.

(Special Notice): Due to the popular response to our Proof Set Contest for our readers, **we will** continue the Closest Guess Number entries also the Find of the month. Somehow the response for the Best Club Attendance and Best Exhibit Awards were not received from any clubs or officials. To the New and Old readers here is a recap of the contest . . . Each month we will accept entries of (1) per person of each contest. The "Closest guess" figure of the amount of 1958 proof sets that will be struck for the month. Entries to be in our office by the 15th of the month. The second contest will be the most interesting or unusal find of the month. The judges decision to be final. The winning awards will be a 1957 or 1958 proof set. If you think you can venture a close guess, or had an interesting find, write our office and win yourself a FREE proof set.

BUY NOW!

Now is the time to buy your coin needs, during the summer and vacation time many of our advertisers have Summer Bargains for sale. Each year at this time there is lull in sales. With the "Red Guide Book" already on the dealers shelves the new prices will start holding in September. So, if you have a few dollars to spare fill those empty slots in your collection before the price is up again.

We welcome Alaska, the 49th State, to the Union, Hawaii may well be the 50th. Their early coinage should prove very popular to the collector.

Purchasing items from advertisements Coins are offered for sale in the following manner: By Fixed Price—the price quoted by the seller; Or by Auction, where there is no price quoted but solicited. In this method of sale a lot number is given to each item. You enter a bid along side of the lot of your choosing, which can be higher or lower than (price guide if one is listed). The high bidder, being the buyer. After the closing date, the advertiser will notify those who are the highest bidder. Unless credit is arranged, payment is required before shipment is made.

THE PUBLISHER reserves the right to edit or reject any ads or news they deem objectionable and will not be responsible for letters written by hand. Please send **cash with ads.** All advertising cuts to be furnished by advertisers or send cash amount to cover expense of having it made. Send articles, news items of interest for print, to the Editor.

Manufacturers supply and material prices will be honored. No cut-rate ads of same will be accepted in order to protect name brand company prices.

We accept advertising in GOOD FAITH. All transactions will be solely between the advertisers and the purchaser.

Opinions expressed by writers of articles, columns, comments, etc. in this magazine are their own and do not necessarily represent the views of the editors or officers.

When writing for information to dealers or collectors, be kind enough to enclose a stamp for a response. It's been my pleasure to say practically all dealers and collectors are honest and fair. No trades are final until both parties are satisfied. On purchases it is customary to give at least a 3 day satisfactory refund.

GRADING STANDARD

PROOF—Coin, a mirror-like finish, especially struck for collectors on polished metal blanks and struck by slower hydraulic press to obtain best feature lines.

UNCIRCULATED made for general circulation has lustre but never reaches circulation. A Gem Unc. is unusually well struck has lustre no scratches, rubbings or mars.

EXTRA FINE & A. U.—about same. Coin is about uncirculated, slightly worn on high points and may have some mint lustre.

V. FINE—Has been circulated but all features and lettering are sharp.

FINE—Has all features and lettering but not sharp. Liberty is readable.

V. G.—Has border rims most features and lines visible. Part of Liberty visible.

GOOD—All features and lines worn but visable.

FAIR—Considerably worn.

POOR—Considerably worn smooth, or corroded, good only as space filler.

This grading is used only as a guide to help you and is a general medium used by all dealers and collectors in the Numismatic field.

POINTS TO LOOK FOR ON SOME POPULAR COINS.

1 CENT LINCOLN: The lines on wheat stalk and Lincolns ear are a good spot to look for wear. On a coin classed as very good most lines should be showing, on a coin graded fine they should be sharp.

5 CENT LIBERTY: E Pluribus Unum is legible on coins graded good, clear on coins graded very good. One graded fine should have full liberty.

5 CENT BUFFALO: On a good coin edge of word Liberty may be slightly worn, but on one graded very good the word Liberty is clear and one-half of horn shows, a fine coin should have nearly a full horn, a coin classed as very fine has full horn and tail shows on hip.

10 CENT MERCURY: Watch lines on fasces, on coins classed very good some fasces lines show, a fine coin should have most all lines.

FOR BEGINNERS who are just starting to collect, here are a few suggestions and some advice. First, a coin guide book is a must. They can be purchased for $1.00 or more for helpful information: on care, condition, value, amount minted, types, how coins are made, and other news of help and interest. Most coins can be found in circulation. As you are making your set always try to improve the worn coins. Value of coins depends greatly on the condition. Never clean or polish coins unless you are experienced. If you must try, use a common date coin. There are handy cleaning kits available for this purpose. Coin insert folders and other supplies can be obtained at your dealer. You may also notice that the age of old coins do not make them rare. There are some late date coins minted that are worth more than some hundreds of years old. What makes one coin worth more than another are by these factors: Amount of coins minted, availability, collectors demand and any unusual die strikes. Coins can be obtained through purchases, by auctions or trading with collectors. Mint sets can be bought by writing the Treasury Dept., U. S. Office of Treasury, Washington 25, D. C., at face value, plus postage and handling. To obtain Proof Sets of current year send $2.10 money order to Supt. Phila. Mint 16th and Spring Garden Streets, Philadelphia, Pa. You may order as many sets as you wish. Commemorative half dollars are authorized periodically by Congress. These halves when issued are not sold by the mints. they are turned over to a Commission authorized by Congress at face value. The Commission then sells the halves at a premium.

"Happiness Exchange Square" NOT, Times Square!

Mrs. Theodore Roosevelt, with the help of "Big Joe" Rosenfield, is shown changing the street sign in Times Square. The Happiness Exchange is the only Radio Program or TV show that has been honored in this way. For the last three years, on the Birthday of the Happiness Exchange, May 1st, Times Square was changed to Happiness Exchange Square for that day.

Times Square, known the world over for its night life, shows and other entertainment to the millions of visitors, is located at West 42nd Street and Broadway. Times Square is the site for the releasing of the large balloon at 12 midnight each New Years Eve. Note the huge soda bottle in the background.

WABC Radio Network Gets "Big Joe and Happiness Exchange"

The radio listeners can now hear the Happiness Exchange for six hours instead of the previous three on the WMGM station. This change will commence **Sunday, August 3, 12 midnight to 6 A.M. WABC, 770 on your dial.** This program which gives happiness to the needy has already given away over $1,300,000 to help the human race through the donations of its listeners.

To commemorate the 10th Anniversary, medals will be struck in aluminum, bronze and gold the size of a half dollar. During the recent interview and coin talk with Jack Nannery and James Brown, Numismatists, the suggestion was made to strike coin medals for the anniversary. A few days later Nick Salimbene also a numismatist wrote to the program highly commending the project with his remittance and request to receive the first Coin Medal. Big Joe read this letter over the air. Thus started the ball rolling with many listeners phoning and mailing their orders in. Big Joe, has informed us there will be a limited amount of these medals struck. This program is non-profit and therefore tax exempt. These orders and other contributions will be used to help others in need. A $1.00 contribution will get an Aluminum Medal; $2.00 a Bronze Medal and $5.00 a stamped 14 K Gold Plated Medal. The strikings will be limited to 4,000 Aluminum, 1,000 Bronze, and 500 Gold Plated. The design and inscription will be an embossed heart, around it, "The Big Joe Happiness Program" the Program With A Heart. The reverse will have, There is only One Race, The Human Race. - 1949-1959 Tenth Anniversary. The medals will be available August 5, 1958. Contribution orders should be sent to The Happiness Exchange, Box 222, Times Square, N. Y., N. Y.

This program has and continues to elaborate and give talks on the Coin Hobby. Big Joe, an ardent follower of numismatics has accumulated an extensive collection for the program through the donations of coins and money sent in by listeners. All contributions are tax deductable and are acknowledged over the air. If you have any odd or duplicate coins you don't need, send them to this worthy cause.

Among its proud achievements to its fellow man is their Marrow Bone Bank, the first of its kind, and the recent part it and the listeners played in helping save the life of a little boy named "Stevie" They arranged the Marrow Bone transplant" operation at a hospital in Philadelphia, Pa. The donor Mr. Abbott, gave one of his ribs so that the Marrow, would be transplanted to Stevie, who was a Leukemia victim. This new experiment in fighting this blood disease has proven successful, when doctors gave up hope for little Stevie. This operation has given new hope, a check of the blood test showed negative, no Leukemia.

BUREAU OF ENGRAVING AND PRINTING

TREASURY DEPT., WASHINGTON, D. C.

Part III — Final Part of the Series

This series contains all phases of the printing of U. S. Currency and Postage Stamps.

A number of years ago the Bureau also developed an automatic electric eye perforating machine for use in stamp production. Five of these machines are used today to perforate the rolls of printed stamps. This highly specialized equipment parallels both the old and new stamps presses in versatility. It receives the large roll of stamps after the completion of the printing process, perforates the stamps in both directions, cuts them into individual sheets the size of the original plate, 200, 280, 300, 360, or 400 stamps each, and delivers them to the end of the perforator in groups of five sheets at a time. Only two employees are required to operate each perforator. Each machine is capable of delivering approximately 200 sheets a minute.

Those rolls of postage stamps printed from 170- and 384-subject plates are perforated on specially-built machines. The perforated rolls are then placed on coiling machines and are wound into coils containing 100, 500, 1,000 or 3,000 stamps. The Bureau has under development new coil processing equipment which, when perfected, will be used to process the stamps printed from 432-subject plates. This equipment provides a continuous operation for the examination, rejection of defective stamps, and for winding, ejecting and wrapping of the finished coils ready for shipment to the post offices. Extensive savings and time will be realized from this equipment in the production of coil stamps.

The sheets of stamps printed from 360-subject plates are assembled with a mechanical collator of special manufacture. This collator produces units of 60 books in one collation. In subsequent processes these 60-book collations are reduced to single book units containing either 12 or 24 stamps of the 3¢ (ordinary) or 12 of the 6¢ (air mail) denominations.

Postage stamps are examined and counted by hand in the same general way as the currency. Since most of the processes in the production of stamps are performed automatically without handling, the sheets of finished stamps are examined individually for imperfect work which is separated from the perfect sheets. The perfect sheets are counted before they are separated into units for final processing. The final step in stamp production is the automatic wrapping of individual units which are then cartoned and ready for delivery to the various post offices throughout the United States.

The Bureau prints and ships all postage stamps required to supply approximately 37,000 post offices in the United States and its possessions, of which 3,753 are first class stations. There are 45 different United States postage stamps printed exclusive of commemorative issues, including 20 denominations of ordinary stamps ranging in value from ½¢ to $5. Commemorative stamps are frequently issued and are usually of the 3¢ or 8¢ denominations.

The quantity and face value of the printed items delivered by the Bureau are shown in the following table:

DELIVERIES DURING THE FISCAL YEAR 1957

Checks (including 407, 706,000 Tabulating Card Checks)	152,415,889	
Grand Total	$50,014,223,931	$217,224,734,459.51

Approximately 5,800 tons of paper and 1,342 tons of ink were used in producing the above securities.

The cost of producing postage stamps in sheet form in the fiscal year 1957 was $0.1567 per 1,000 stamps.

The cost of producing United States currency in the fiscal year 1957 was $9.01 per 1,000 notes; and $9.00 per 1,000 notes for the Federal Reserve currency.

The life of a $1 silver certificate is approximately thirteen months. Statistics are not available on the other denominations. However, it is reasonable to assume that the higher denominations of paper currency remain in circulation longer than the $1 notes because they are not used as frequently in business transactions.

The main Bureau building is open to visitors from 8 to 11 A. M., in the morning, and 12:30 to 2 P. M., in the afternoon, Monday through Friday, except legal holidays. The Bureau is closed on Saturdays and Sundays. Visitors are escorted on the tour by a trained guide, who explains the various operations in currency printing. There is no charge for the guide service.

LAZY ONE'S

The above photo 1941-D shows a tilted (1) . This piece is quite odd. Theodore Mikulak of 79 Prospect Street, Newark, N. J. brought this piece to the office for inspection. It looks authentic enough, but we are at a loss to explain it. Can any of our readers figure out what happened? Never bothering with late material one does not become consious of these oddities. After seeing and inspecting this "lazy One" we found the above 1911-D with the one also slightly tilted. Any comments are welcomed on these oddities. Write Mr. Mikulak or our office.

PRESSURED DOLLARS

IT'S IN THE POT—Stanley Trytek believes in saving under pressure. Trytek, a New York service station operator, saved 1,703 silver dollars in a pressure cooker. Yesterday he took his tasty dish to the bank, where tellers Robin Wilson and Robert Carter tallied it up. Now the pot's empty, Trytek says he will try to cook up another potful right away.

SAY YOU SAW IT IN THE "FLYING EAGLET".

MINT ERROR

Dear Mr. Spadone:

I am enclosing a rough sketch of the reverse side of a five dollar bill which I thought may interest you.

The bill was brought to me by a person who works in my Department at the US Army Signal Corps School. I have never seen anything like it and wondered if you have.

It appears to be a normal five dollar bill in every way except that has a printing of a part of the obverse side on one end of the reverse and this part is printed backwards, that is, it reads correctly if it is held before a mirror. The black printing appears to be under the green.

If you have any idea if such a bill is unusual and if it has any value I would appreciate your comments.

I am fairly new in coin collecting and am doing it in a modest way, but get a great deal of pleasure out of the hobby and enjoy your magazine very much.

—Col. A. L. Burke
Fort Monmouth, N. J.

(Editor's Note) This bill when printed in sheets was evidently placed on a wet inked plate or sheet. It has a premium to the currency collector.

Silver: 10/- Commemorative
(as above)

All Coins bear the likeness of Prime Minister Kwame Nkrumah and the Black Star of GHANA. The Coins are produced by the ROYAL MINT of LONDON whose PROOF SETS represent the highest quality barring none.

Each set of Coins comes in a beautiful velvet-lined case, with the Crest of GHANA embossed in gold on the outside, and the flag of GHANA woven into the fabric on the inside.

These COINS promise to be as popular as GHANA'S stamps! *Dealers are invited to send for Order Blanks from the Agency.*

SPECIAL NOTICE

We still have on hand a few hundred plastic 6" rulers, letter openers and leather key holders. These items are our FREE anniversary gift to our readers. If you haven't received one and would like to receive your gift, please send a Self Addressed envelope, we will be happy to forward you one. Requests for the letter opener should send a long envelope.

Many collectors no doubt have seen Mrs. Rae Biester, Supt. of the U. S. Phila. Mint on TV July 20. Your Editor took a snap shot of this while the program was on. Hope this comes out for our next issue. A previous request for a photo of our U. S. Mint Supt. for our readers to see was ruled not appropriate or something on that order. In any event we will have to settle for 2nd best. I am sure our readers would have appreciated an original.

Also of interest to our readers will be the Frosted Head, proof coins. We have on hand photos of these for comparison so our readers may see the difference. Watch for these interesting items in our next issue.

A number of requests were received for back issues containing our Grading Series. We will, if all goes well, publish the entire series in our Sept. issue. So if you missed any you can have the complete series. These may be used as references or debate at your meetings or even framed in your coin den.

PAPER MONEY ROUND-UP

By Harold Don Allen

A FRIENDLY TIP

Paper money is an infinitely wide field and, while we enjoy in these columns skimming the highlights once lightly, we want this month to limit ourself not only to the currency of a single institution, but to merely two or three individual notes of an obsolete bank. For those notes speak out loudly, and every collector seriously interested in any branch of paper money owes it to his collection to hear the story those bills have to tell.

We have been doing some highly specialized numismatic research, for a series of detailed articles now appearing from time to time in the CANADIAN NUMISMATIC JOURNAL, and dealing with the currency issues of a number of early Canadian banks now merged with the Bank of Montreal. This kind of reading would interest only the specialist, and has no place here. In fact, our thoughts were far from EAGLET readers as we sat, surrounded by musty ledgers, in the Bank of Montreal's busy head office, and made our notes. We were handling the redemption copies of obsolete bank bills, the "one of each type" retained by bankers for verification purposes should an old bill which tellers do not recognize be presented to be redeemed. The lovely old notes, crudely pasted down in bulky scrap books, bore such historic names as the Molsons Bank, Merchants Bank, Bank of British North America — there even were crisp specimens of such incredible rarities as the negotiable Molsons $6 and $7 bills. But they were not the story behind this column. It came with the picking up of a yellowed old envelope marked "Commercial Bank of Canada — sample notes." We opened the envelope with great care, for it gave every evidence of not having been touched in twenty, thirty years. (The Commercial Bank of Canada closed in 1868, but its extremely rare notes still would be good.) We opened the envelope — and a shower of slivers and fragments of ruined bills fluttered out.

Some of them, without doubt, represented the only specimens in existence of historic bank note types.

The paper of remaining portions was too brittle for handling but it showed every evidence that the bills had been crisp, uncirculated notes!

The currency had been carefully housed in a holder of celluloid and sealed, light-proof, in the old envelope — perhaps half a century back.

* * *

What had destroyed the notes? The question beat me, for the envelope had been locked in a strong box in the Bank's vaults, unopened for many years until I came along.

I went on with my work, but the question troubled me. A large part of my savings is in currency rarities, and I've no desire to find them in fragments when I take them out to put them on display.

* * *

The answer, as answers will, turned up when the original question was far from my mind. I had just started my 1958 Coin Week report, and was visiting Canada's senior coin dealer, Jules Mero, and browsing through the Coin Week stories in old NUMISMATISTS. My eye caught something as I leafed through a seven-year-old number, the issue of July, 1951. There, in the Letters column, was a contribution of one William H. Dillistin, headed "Paper Money Collectors — Warning." The letter related how whole sheets of National Currency housed in celluloid had disintegrated — into "several hundred very brittle pieces." The envelope containing the sheets had fallen apart, and notes adjacent to it had been damaged. The culprit was identified as the celluloid, cellulose NITRATE, which (the letter writer points out) "decomposes spontaneously, releasing fumes of highly acidic oxides of nitrogen . . . which cause the complete breakdown of paper and other cellolosic material with which they come in contact."

"The sheets kept in the envelopes went to pieces entirely, the ink on the notes faded, and the fibrous structure of the paper broke down completely." the writer reports.

The cellulose ACETATE of which most present-day commercial holders are made gives every evidence of being inert. So, there's little apparent danger to the user of first day cover albums, note holders, "Crystalmount" and other items made of this substance. But if you've a yearning to "do it yourself" and construct your own holders, these paragraphs should convince you to avoid CELLULOID like a plague!

WHAT SAY YE 'LIBERTY BELL'

In a request for our readers to find an inscription on the Franklin Half Dollar in our previous issue we have received a number of replies, all being correct and interesting. As follows is the reply of **Lt. Adrian Smith,** who is stationed in Japan.

The inscription is on the liberty bell . . . Lev. XXV, 10. this is a passage meaning "Proclaim liberty through out the land and to all inhabitants there of." The writing just below the inscription reads . . . PASS & STOW, Phila., MDCCLIII. This is the names of the founders and date 1753. Lt. Smith, also mentions that this is the 3rd bell the previous one cracked. The 3rd and present one did not crack until July 8, 1835, when being tolled for the body of Chief Justice Marshall, who died on the 6th. It was repaired for Washington's birthday, 1846, when it cracked again beyond repair. It now hangs in the Independence Hall, in Philadelphia.

George W. Martin, of Duxbury, Mass. says the same but adds . . . I found what I was looking for in the encyclopedia, the inscription is from the bible. Since the order for the founding of the bell was given to Robert Charles of London in 1751 it would seem that some one was ahead of himself in history. "And ye shall hallow the 50th year and proclaim liberty etc." and was in memory of Wm. Penn, and the forefathers of the Quakers who settled in Pennsylvania 50 years before.

MICHIGAN COLLECTORS TAKE NOTE

Dear Sir:

We have received our first copy of The Flying Eaglet, and have found many interesting and informative items in the magazine. We are looking forward to our future copies.

My husband and I are beginners of coin collections, such as, cents, nickels, dimes and quarters. We find this so very interesting we would like to join a coin club, or perhaps start one in this vicinity. Could you give us any information about doing either, or both, of these? We have found several people who collect old coins, and feel we could start with a good sized group.

Thank you.

Sincerely,
Mrs. George Weidman
235 East Corey St.
Bronsen, Michigan

Editors Note—We will publish a listing of all Numismatic Clubs and Groups each month. For collectors to attend or join. Officials should send all information to the Editor.

Dear Sir:

We wish to submit the following as an outstanding find for the month:

A member of the Oregon Trail Coin Club, Earl E. Ferguson of Scottsbluff, Nebraska, has found in circulation a 1909 SVDB cent in very fine AND a 1914-D altered date, in very fine. The latter coin was altered from a 1944-D and the VDB was very evident on the shoulder of the bust of Lincoln. You can imagine his chagrin and the excitement that this coin caused!

PACIFIC COAST MUMISMATIC SOCIETY

At the May meeting there were 32 members and 9 guests. JOHN OHLS spoke on the new approaches to collecting and exhibiting commemorative half dollars. He pointed out that the usual method of exhibiting these can become monotonous, but when grouped in different categories, such as those with maps on them, horses, zoo animals, women, portraits, ships, eagles, etc., it leads into many phases, both instructive and fascinating. The reverse as well as the obverse can be used in this way, he said, thus expanding the knowledge and interest of the commemoratives. His talk was greatly enjoyed by all.

There were 15 exhibits. CLIFFORD BLOOM exhibited a French gold coin of Charles X, and remarked that if General Charles de Gaulle, recently made Premier of France, is permanently given full powers as he originally requested, it should be given some measure of legitimacy by following in the former precepts of France and calling him KING CHARLES, the ELEVENTH! Very good, Clifford. However, a recent editorial expresses our sentiments. ". . . we can only hope that the effect to achieve order will require no more than temporary suspension of the Constitution." (Canham)

THERE'S A FIRST FOR EVERYTHING. The Wendell-Northwestern Co., of Minneapolis, makes wooden nickels. The wooden nickels, of course, are used for advertising, trade promotions, etc. Wooden nickels are nothing new. Recently, however, the WN Co. added something new. A big batch of wooden nickels was sent to a California outfit in preparation for a coin collector's convention. But the check the outfit issued to pay for the wooden nickels came backed marked "not sufficient funds." And this probably became the first time in history that wooden nickels were bought with a rubber check!

The Flying Eaglet Editor Credited with New Listing

The 1959, 12th Edition "Red Guide Book" lists the new discovery. This will enable collectors to readily inspect for a scarce small lettered 2¢ piece.

Dear Sir:

Thanks for your letter of Nov. 16th. Your discovery of a distinguished detail on the large and small motto 2¢ pieces is very interesting.

I have made a note to insert the following in the next edition of the GUIDE BOOK, page 84: "Letter T in TRUST touches ribbon crease at left on small motto variety; there is a 1/32" gap on the large motto variety."

Thanks again for your kindness in writing me about this. I think it will be helpful to the collector, as you have described it.

Very truly yours,
Whitman Publishing Co.

NEVER GIVE UP

When things get tough; when the companies reject your business; when coin sales fall off and company balances are overdue; when your feet start to drag — just perk up and think of all the setbacks ABRAHAM LINCOLN had before he reached the pinnacle. Here are just a few:

Failed in business	1831
Defeated for legislature	1832
Failed in business again	1833
Elected to legislature	1834
Sweetheart died	1835
Nervous breakdown	1936
Defeated for Speaker	1838
Defeated for Elector	1840
Defeated for land office	1843
Defeated for congress	1843
Elected to congress	1846
Defeated for re-election	1848
Defeated for Senate	1855
Defeated for Vice Pres.	1856
Defeated for Senate	1858
Finally Elected President	1860

and then he got shot.

So keep on plugging — and maybe you, too, will finally get shot.

Yours in Coins,
Jack W. Nannery

Dear Sir:

Thank you for the sample copy of "The Flying Eaglet." I take two coin publications now, but yours is so superior that I can't help but subscribe to it. Yours contains articles and information of a nature that is helpful to all collectors, both advanced and new.

I am new, here in Los Angeles and have not met up with any collectors or know of any coin club as yet, but when I do, you may be sure I will be glad to recommend your publication.

Yours truly,

Dear Sir:

I have just finished reading the July 3, issue of The Eaglet and enjoyed seeing info on the double shift 1955 cent, as I have found one recently in Bath, Me..

My OUTSTANDING FIND was a 1942 Lincoln cent in brass. I sold it to a dealer in Cleveland for $10. I found another one last week but he said it had been plated in brass by someone.

Gentlemen:

Just a line to let you know we like "The Eaglet" very much. Would like to report an entry on the outstanding find of the month. A 1922 VG Lincoln 1¢ obverse and fine reverse. You will notice the 2nd "2" is smaller than the first by about 20 percent. I do not know if this is normal or not.

So lots of luck,

Dear Sir:

Enclosed is $5.00 check for another 3 years of good reading. The Flying Eaglet.

Dear Sir:

Just wanted to enter my "outstanding find of the month."

It's a 1955 shift cent which I found in a roll from the bank. It's also the first "money coin" I've found in circulation, so I was doubly pleased.

Sincerely,

Gentlemen:

My son, Robert H. Creps, age 19, has been going through rolls of Lincoln cents for over three years without finding anything unusual. However, in a 6-day period ending yesterday, he found two 1914-D cents. One was VG and the other was VF.

It looks like folks may have been emptying out their piggy banks and getting some of the scarce coins back in circulation.

Gentlemen:

Last month I purchased a sample copy of your magazine and immediately became interested on coin collecting. Within a week my wife became utterly fascinated with the hobby, too. Last week she checked a penny before dropping it in a parking meter and found a fair 1914-D.

Needless to say, we are very pleased with our new hobby and wish to thank you and your fine magazine for helping us start.

Enclosed is $2.00 for a subscription. **Don Robertson**

Dear Sir:

One day while waiting for the wash in the laundromat the owner brought out some old coins. Among them were four Indian Heads. I asked him what he wanted for them. He said "four cents." I said "O.K." One was an 1877 in good condition. Nice way to get 'em.

HOW TO TELL A BARGAIN

Frequently a client asks our advice as to whether a coin offered to him is a bargain. "Well, that depends . . .!" The price is only PART of the story. Grading is a vital factor. A subscriber to the CANADIAN BULLETIN recently pointed out the importance of this (see article July, 1958, CANADIAN BULLETIN.)

We have many letters from satisfied clients regarding our own grading. A Winona, Minnesota client says "All of my recent orders from you have arrived safely and have been 100% satisfactory specimens. That Canadian set is a honey." A New York client says, "Thank you very much for your last shipment, they were beautiful coins." And so on.

When you buy, be sure. If not completely satisfied, simply return any coins purchased from us within 10 days of receipt by you and we'll cheerfully refund your money!

3,000,000 COINS GOING

The Westinghouse Electric Corporation is going to give away money.

The company has purchased 3,000,000 coins from sixteen foreign countries for distribution as part of a summer drive to whet consumer interest in its major appliances. Dealers will give bags, each containing an assortment of seven coins, to anyone who asks for them.

The company has suggested that the bags be kept in Westinghouse refrigerators. It is expected by the company that the dealer will show the product when he hands over the bag.

The promotion will be advertised in 150 newspapers during the week of July 21. Westinghouse's "Studio One" television program will carry word of the drive on July 28. The give-away, which will continue through Aug. will be used to dramatize the idea that Westinghouse appliances "save you money in any language."

In a telephone interview from Columbus, Ohio, Richard Burkholder, Westinghouse's ad manager on refrigerated products, said yesterday that the company's merchandising people had been searching for a promotion program involving money "that would not be too costly."

McCann-Erickson, Inc., the company's agency, was all for the money theme because of its unlimited ad headline possibilities.

Coins Were in Stock

In May the company decided to use foreign coins and placed an order with the Royal Coin Company here. It has an option to purchase 2,000,000 more coins.

Mr. Burkholder said he could not reveal the cost per coin, but "it will get down pretty low if we exercise the option for the extra amount."

A spokesman at Royal said the company was able to fill the order out of inventory, except for 300,000 Australian coins that were flown here.

This is not the largest order the coin company has had. Last year it supplied Kraft Foods, a division of the National Dairy Products Corporation, with 12,000,000 coins. These were for a premium promotion that called for consumers to pay a nominal charge.

The Guild for the Jewish Blind, a nonsectarian organization here, has been handling the packaging for Westinghouse. Its workers are adept at sorting the coins by touch.

A spokesman said this was the largest coin order handled by the organization. The operation is still in progress.

STANDARD GRADING SERIES

Barber or Liberty Head Type Quarter - Minted 1892 to 1916

Good Very Good Fine Very Fine

This quarter was designed by Charles E. Barber. His initial B is found at the base of neck of liberty. The scarce dates of this series are 1896-S, 1901-S, 1909-O, and 1913-S. They value from $10. circulated to $800. uncirculated.

The points of wear are the highest relief, the leafs and Liberty in head dress. Note the photo, **V.G.** coin should have one or more letters shown in Liberty. A **Fine** coin Liberty is visable. **V.F.** Liberty is visable and clear.

Standing Liberty Quarter, (S.L.) - Minted 1916 to 1930

Good Very Good Fine Very Fine

This type quarter was designed by Herman A. MacNeil; the designers initial M is located above and to the right of the date. There are two types in this series type 1 and 2. Type 1, was of 1916-17, the obvere is slightly different, the reverse contains 13 stars at the sides. Type two has 5 stars on each side with 3, under the Eagle. From 1916 to 1924 the dates were on a pedestal which caused the date to wear down rapidly due to the high relief. As of 1925 the date was incused in the pedestal which protected the date from wear. The scarcest coins of this type are the 1916, 1918/17-S, 1919-S, 1921, 1923-S, 1926-S and 1927-S.

Points of wear are noted at the Shield, Knee, and Eagles Breast on the reverse. The Barber and Standing Liberty 25¢ make nice sets in **fine or better** condition but they are hard to find in this grade.

Advertisers please note: closing date for copy is the (20th) of each month, copy received later, will be inserted in our next issue.

Send clear copy, we will not be responsible for long hand copy.

Regular type used is (8) point. (6½) points only when necessary.

Approximately (80) lines used to a column, (6) words to a line.

Contracts must run in consecutive issues.
